IDEAL PATH - PLAYER CHOOSES "UNLOCK TRUCKS"

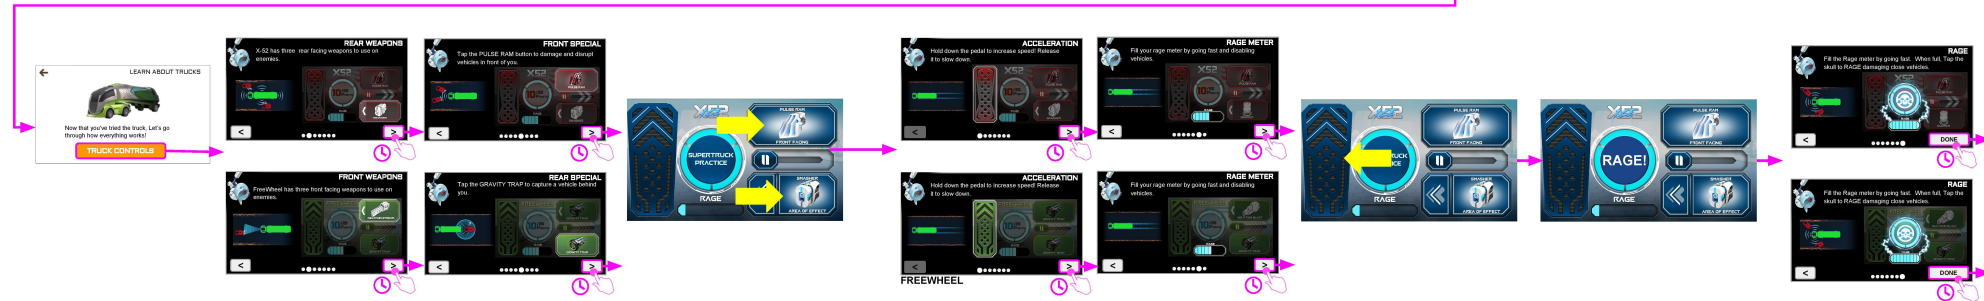

Go to
Truck NUX
Flow Slide

SECONDARY PATH - PLAYER HAS A TRUCK BUT DOES NOT GO TO THE UNLOCK FLOW FIRST

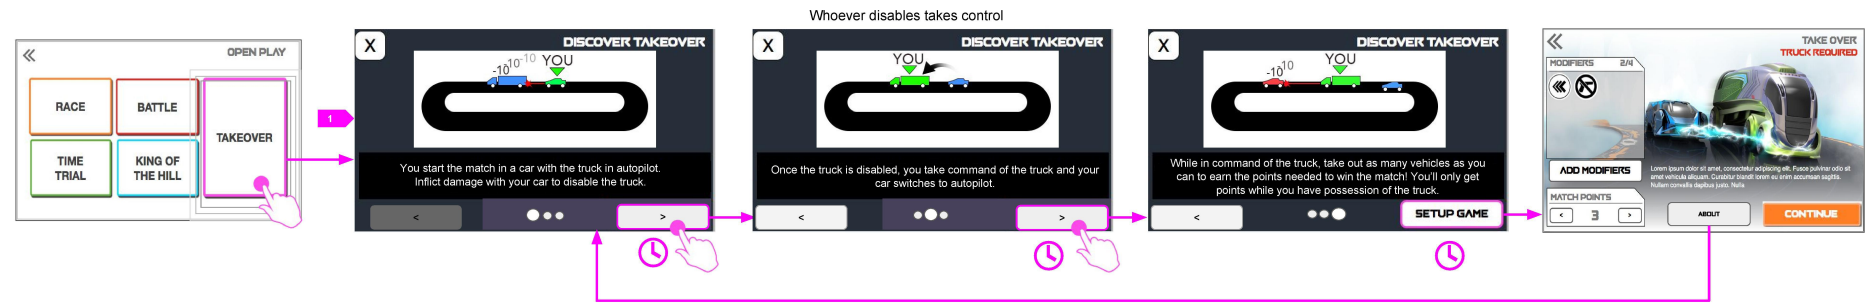

(ALSO APPLIES TO GUESTS IN MULTIPLAYER GAMES)

- 1 The player selects the "Unlock Trucks" from the open play list.
- 2 Players get a nice splash screen depicting all the great things about trucks. In this view they can declare they own a truck and start the truck unlock process or learn more and go to the store to potentially purchase.
- 3 A truck silhouette is displayed (as we do not know exactly what truck the player has at this point) with an animating arrow to connect it to the charger. The player cannot move forward without a truck.
- 4 When a truck is detected (added to charger) we display the type of truck and animate it locking onto the charger with some cool burst of energy effect. The Continue button also animates.
- 5 Backing out of any of the charging flow places the player on 2
- 6 Add note
- 7 Add note

Basic slides with a delay.

1 Keep slides to a bare minimum with simple visuals to cover the basics of takeover.

WEAPON RANGE
Weapons have different range

LONG RANGE SHORT RANGE AREA OF EFFECT

HOLD DOWN THE PEDAL TO GET IN RANGE!

NEXT

FIRING RATE
Weapons fire differently

SEMI-AUTO TAP FAST RAPID FIRE TAP AND HOLD CHARGE TAP, HOLD, RELEASE

USE THE RIGHT GESTURE TO DO MORE DAMAGE!

BACK NEXT
